

Lesson Plan
Govt. College Barota (Sonipat)
Department of Geography,
Paper: Economic Geography-II (Theory)
Class and Session: B.A.5th SEM, (2023-24)
Name of the Assistant /Associate Professor: Vikas Malik and Salesh Kalkal

Week,Month	Chapter and Topic
Week:1, July	
	Chapter 1: Nature and Scope of Economic Geography: Introduction of Economic Geography
	Nature and Meaning of Economic Geography
	Scope and Branches of Economics Geography
	Methods of Studying Economic Geography
	Relation of Economics Geography with other Social Sciences
	Importance of Economic Geography
	Chapter 2: Classification of Economic Activities : Introduction of Economic Activities
	Meaning and Types of Economic Activities
	Primary Activities: Gathering, Hunting
	Primary Activities: Pastoralism, Fisheries
	Primary Activities: Lumbering, Agriculture and Mining
	Secondary Activities
Week: 2, August	
	Tertiary Activities
	Quaternary and Quinary Activities
	Green House Effect and Global Warming
	Test
	Chapter 3: World Natural Resources: Meaning and Definition of Natural Resources
	Role of Resources in Economic Development
	Resources are Place and Time Relative
	Resources are the Product of Interaction among Culture, Nature and Man
	Role of Production Forces in Resources Formation
	Classification of Resources
	Classification of Resources: On the Basis of eventually to Use
	Classification of Resources On the Basic of Origin
Week: 3, August	
	Classification of Resources: On the Basic of the Aim of Utility
	Discussion
	Chapter 4: Utilization and Conservation of Natural Resources : Introduction and Meaning of Utilization and Conservation
	Biotic Resources: Forest Resources
	Geographical Distribution of Forest Resources
	Biotic Resources: Grassland Resources
	Geographical Distribution of Grassland Resources
	Biotic Resources: Agricultural Resources
	Geographical Distribution of Agricultural Resources

	Biotic Resources: Animal Resources (Fisheries)
	World Distribution of Fisheries
	Economic and Geographical factor behind in the Development of Fisheries Industry in Northern Hemisphere
	Biotic Resources: Wild Animals and their Habitats
	Abiotic Resources: Water Resources
	Oceanic Water Resources
	Ocean and Climate
	Ocean and Food Resources
Week: 4, August	
	Ocean and Mineral Resources
	Ocean Transport and Trade
	Ocean and Drinking Water
	Surface Water Resources
	Utilization of Surface Water Resources
Week: 5, September	
	Underground Water Resources
	Origin of Philosophy of Conservation
	Meaning and Need of Conservation of Resources
	Conservation of Soil and Water Resources
	Conservation of Air and Forest Resources
	Conservation of Fisheries Resources
Week:6, September	
	Conservation of Mineral Resources
	Test
	Chapter 5: Agricultural Resources: Meaning and Importance of Agriculture
	Agriculture Resources: Rice and World Distribution
	Agriculture Resources: Wheat and World Distribution
	Agriculture Resources: Cotton and World Distribution
Week: 7, September	
	Agriculture Resources: Sugarcane and World Distribution
	Agriculture Resources: Tea and World Distribution
	Agriculture Resources: Coffee and World Distribution
	Agriculture Resources: Rubber and World Distribution
	Chapter 6: Mineral Resources: Meaning of Resources
	Mineral Resources: Iron Ore
Week: 8, September-October	
	World Distribution of Iron Ore
	Mineral Resources: Coal
	Types of Coal
	World Distribution of Coal
	Mineral Resources: Petroleum
Week: 9,October	
	World Distribution of Petroleum
	Mineral Resources: Natural Gas
	World Distribution of Natural Gas
	Assignment
	Chapter 7: Manufacturing Industries: Meaning of Manufacturing

	Industries
Week: 10, October	
	Characteristics of Modern Large Scale Industries
	Location of Industries
	Classification of Manufacturing Industries: Based on Size of Industry
	Classification of Manufacturing Industries: Based on Raw Material of Industry
	Classification of Manufacturing Industries: Based on Finished Goods of Industry
Week: 11, October	
	Classification of Manufacturing Industries: Based on Owner of Industry
	Concept of High Tech Industry and Technopoles
	Changing Trends of Industrial World
	Iron and Steel Industry
	Location of Iron and Steel Industry
Week: 12, October	
	World Distribution of Iron and Steel Industry
	Textile Industry
	World Distribution of Textile Industry
	Wollen Industry
	World Distribution of Wollen Industry
Week: 13, November	
	Jute Industry
	World Distribution of Jute Industry
	World Industrial Complexes
	Test
	Chapter 8: Transport and Communication: Increased Significance of Transport and Communication
	Transport: Meaning and Modes
	Surface Transport : Roads and Highway
	Surface Transport : Railways
Week: 14, November	Surface Transport : Water Transport
	Air Transport And Pipelines
	Communication and Satellite Communication
	Cyber Space: Internet
	Chapter 9: International Trade
	Meaning and Basic of International Trade
	World Regional Trade Blocks
	Advantages and Disadvantages of International Trade
	Revision
	Revision
